

RTS LAB_E Solution

Bissallah Ekele (19061498) 19/04/2020

Task was done in Matlab_R2018b.

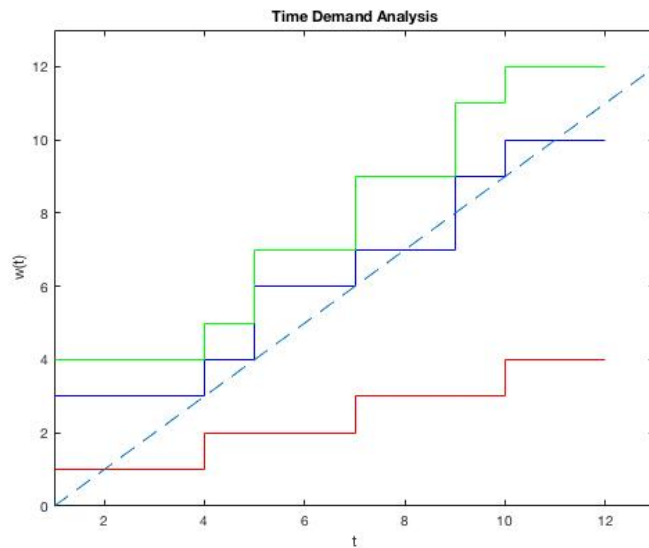

LAB_E.m and TDA.m should be in the same directory.

A LAB_E.m file is the start and TDA.m contains the time delay analysis function.

Values are accepted from the user; default values are used if no value is specified by the user when prompted.

Press Enter key to use default values when prompted.

Below is an output graph when default values are used.

w1 is Red, w2 is Blue, w3 is in Green.
